## ALASKA BOARD OF FISHERIES

### CHARGE STATEMENT FOR THE NUSHAGAK-MULCHATNA KING SALMON MANAGEMENT PLAN COMMITTEE

**2018-291-FB**

At its 2018 Bristol Bay Finfish meeting, the Alaska Board of Fisheries' (board) heard testimony from Nushagak sport and commercial fishing stakeholders regarding Proposals 41 and 42 seeking to create a mechanism that would pair restrictions on both the sport and commercial fishery for the purposes of king salmon conservation.

As a result of this discussion, the board is creating a temporary committee to review the fisheries and provide recommendations to the board on a comprehensive solution. The charge statement of this committee as described in detail in RC84.

The committee, with Members Payton, Morisky, and Ruffner, will provide an update and potentially a recommended proposal at the board's 2020 Statewide meeting.
